

B.SMART
CLOUD BASED FUEL MANAGEMENT

CLOUD MANAGEMENT

All data saved directly to the cloud with remote access 24/7 from any device. Monitor usage and reports on demand.

APP BASED CONTROL

Hassle free pump operation via a dedicated App designed for smartphones. Connecting via bluetooth with all data sent directly to the cloud.

SECURE

Access restricted to authorised users, preventing unauthorised dispensing.

UPGRADE EXISTING SYSTEMS

Upgrade your current Piusi system for greater control of usage and ease of refuelling

- € No hosting or yearly charges
-  Manage multiple pumps and locations
-  Expandable user and vehicle records for any fleet
-  Reliable connectivity and pump control every time
-  Designed for use in truck, bus, agri and automotive industries

BSMART SYSTEMS AVAILABLE

BSMART CUBE

- BSmart Cube control unit
- Dispense up to 70 l/min
- Built in nozzle holder
- Pedestal stand optional

BSMART SELF SERVICE UNIT

- BSmart Control unit
- Integrated pumping system with up to 90 l/min
- Integrated PIUSI water captor filter
- Built in side nozzle holder

BSMART BOX

- BSmart Control unit
- Retro fit to existing pump
- AC & DC options available
- Can be used on mobile browsers
- Controls up to two pumps

TANK WATCHDOG

- Precise tank level indicator
- Manage multiple tanks from one screen
- Customised automated level alerts
- Accurate real time reporting

MONITOR TANK REMOTELY

BSMART MANAGER LOGIN

- Remotely monitor all transactions
- Manage multiple sites and users from the one screen
- Highly accurate information on demand
- Expandable to accommodate increasing fleet size
- Produce detailed reports to help refine your fuel usage

From **19/04/2021** To **19/05/2021**
Total amount dispensed **1309.81 L**
